

AcademyOS

AI-ENABLED ERP FOR CIVIL-SERVICES ACADEMIES

The intelligent platform built for Civil-Services coaching institutes

Run enquiry-to-alumni operations across every branch — and let AI handle the heavy lifting of coaching: answer evaluation, mock interviews and 24×7 doubt-solving.

A product by Budstech Software Consultancy Services

Coaching institutes run on a patchwork of tools

Fragmented systems

Legacy ERP, Excel, Google Forms, WhatsApp and standalone CRM that don't talk to each other.

Manual, slow work

Fees, GST, TDS and payroll handled by hand — error-prone and time-consuming.

Leads slip away

No structured pipeline, so enquiries go cold and conversions are lost.

Faculty overload

Senior faculty spend hours grading Mains answers and running mock interviews.

No single view

Each branch is a silo; management has no real-time, consolidated picture.

Revenue leakage

Untracked discounts, missed instalments and reconciliation gaps erode margins.

ONE PLATFORM, END TO END

Unify your institute. Automate the busywork. Add intelligence everywhere.

UNIFY

A single cloud ERP from first enquiry to alumni — every branch, every role, one source of truth.

AUTOMATE

Fees, GST, TDS, payroll, reminders and reporting run themselves — accurately and on schedule.

INTELLIGENCE

AI woven through operations: evaluation, mock interviews, doubt-solving, prediction and insight.

14 modules + an AI Intelligence Layer — one system

1	Enquiry & CRM	2	Enrolment, Fees & Instalments	3	Discount Approval & Audit	4	Payments (Salary · TDS · Vendor · Petty Cash)
5	GST Reconciliation & Tax	6	HR, Payroll & Biometric	7	Course Schedule	8	Test Series & Question Bank
9	Mentorship Program	10	Mains Exam Program	11	Personality Test Guidance	12	Online LMS Integration
13	Inventory (Multi-branch)	14	Student Portal & App				

AI & GenAI Intelligence Layer — answer evaluation · mock interview · doubt tutor · prediction · reporting

Run day-to-day operations end to end

Enquiry & CRM

Capture every lead, track the pipeline, auto follow-ups and counsellor assignment.

Enrolment & Fees

Enrolment, multi-discount fee plans, instalments, receipts, online collection & reminders.

Course Schedule

Batches, faculty, rooms and timetables for regular & weekend courses.

Inventory

Study-material stock across branches with issue, receipt and reorder tracking.

Student Portal & App

Web + mobile access to fees, attendance, marks, feedback and exam status.

Automated Reporting

Daily reports auto-generated and pushed to WhatsApp & email at 8 PM.

Financial-grade finance, payroll & tax

Payments

Salary, TDS, vendor and petty-cash payments managed inside the ERP with approvals.

GST Reconciliation

Upload portal input, auto-reconcile invoices and compute payable GST.

HR & Payroll + Biometric

Biometric-linked attendance, salary, income-tax and loan/advance recovery.

Discount Approval & Audit

CMD approval workflow with a full, immutable audit trail of every change.

Tax & TDS Reports

GST payable, unreconciled invoices and monthly TDS — all generated in-system.

Compliance-ready

GST/TDS rules built in; configurable rates; auditor-friendly records.

The complete academic engine

Test Series & Question Bank

Syllabus-tagged questions, Prelims & Mains tests, scheduling and auto-scoring.

Mentorship Program

Mentor mapping, sessions, marks and structured feedback captured in the ERP.

Mains Exam Program

Answer submission, evaluation workflow, marks and improvement tracking.

Personality Test Guidance

Interview-panel scheduling, feedback capture and readiness tracking.

Online LMS Integration

Unified online courses, attendance, exams and performance with the main ERP.

One academic record

Every test, session and result rolled into a single candidate profile.

THE DIFFERENTIATOR

AI that does the heavy lifting of coaching

Three flagship capabilities replace the most time-consuming, highest-value work in UPSC preparation — plus intelligence across every module.

AI Mains Answer Evaluation

Students upload handwritten or typed answers; AI evaluates them against a UPSC-style rubric in minutes.

1

Upload answer

Student uploads a scanned handwritten sheet or types the answer.

2

AI-OCR reads it

Vision-AI transcribes handwriting into clean, structured text.

3

Rubric scoring

Scored on content, structure, coverage, examples & presentation.

4

Feedback & tracking

Marks + actionable feedback; improvement tracked across attempts.

Frees senior faculty from hours of grading — students get instant, consistent feedback.

AI Mock Interview

A voice-based interview bot that prepares candidates for the personality test using their own DAF.

1

DAF analysis

AI reads the candidate's DAF and predicts likely questions.

2

Voice interview

Spoken Q&A with natural, DAF-driven follow-up questions.

3

Scoring

Assessed on content, clarity, communication and depth.

4

Report

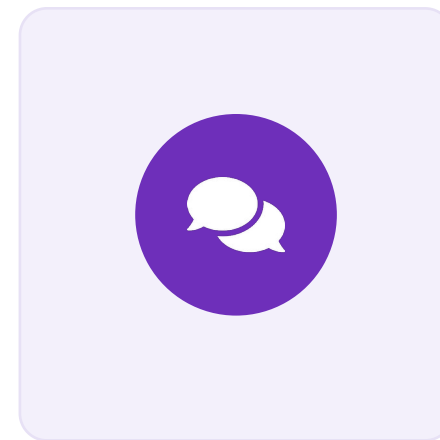

Detailed report with strengths, gaps and improvement tips.

Unlimited interview practice, any time — without tying up a faculty panel.

24×7 GenAI Doubt Tutor

An always-on tutor that answers student doubts from your institute's own content and video lectures.

1

Ask anything

Students ask doubts in chat, any time of day or night.

2

Grounded answers

AI retrieves from your notes & transcripts (RAG), with citations.

3

Stay on syllabus

Answers anchored to your curriculum and current affairs.

4

Escalate

Low-confidence queries are routed to a human mentor.

24×7 support that scales with enrolment — no extra teaching headcount.

AI across the whole institute

Question Generation

Auto-create Prelims MCQs & Mains questions mapped to the UPSC syllabus.

Lead Scoring

Predict conversion likelihood so counsellors chase the hottest leads.

Fee-Default Prediction

Flag students at risk of missing instalments — act early.

Fraud & Anomaly Detection

Catch duplicate or abnormal payments and out-of-policy discounts.

GST Invoice Matching

Auto-match portal data to the register and explain mismatches.

Timetable Optimiser

Resolve faculty, room and batch clashes automatically.

Demand Forecasting

Predict study-material needs per branch and batch.

AI Reporting Assistant

Ask in plain English; get instant answers, charts & daily summaries.

FOR THE ASPIRANT

A student experience that keeps aspirants engaged

One app for everything

Fees, attendance, marks, mentor feedback and exam status in their pocket.

Personal AI study companion

Guidance on what to study next, based on their own performance.

Practice that gets graded

Submit Mains answers and book mock interviews — scored by AI.

Exam-readiness score

An AI-predicted readiness view with strengths and weak areas.

BUILT FOR SCALE

Designed for multi-branch institutes

Every record is branch-aware. Branch teams see their own data; management gets a consolidated, real-time view across all branches — with role-based portals for each function.

Management / CMD

Consolidated dashboards, approvals & AI reporting.

Branch Admin / Counsellor

Enquiries, enrolment & fee collection.

Accounts / Finance

Fees, payments, GST, TDS & reconciliation.

HR / Payroll

Employees, biometric attendance & payroll.

Faculty / Mentor

Tests, mentorship, Mains & interview tools.

Student / Candidate

Portal & app — learning and self-service.

CONNECTED

Plugs into the tools you already use

Biometric Devices

Real-time staff & student attendance sync.

Razorpay

UPI, cards & netbanking fee collection.

WhatsApp & SMS

Reminders, OTPs and daily reports (MSG91).

Online LMS

Integrate your existing learning platform.

GST Portal

Input upload and reconciliation.

Model-agnostic AI gateway — your institute is never locked to a single AI provider.

Enterprise-grade security & compliance

Role-based access

Granular RBAC with 2FA for finance and admin roles.

Encryption

Data encrypted in transit and at rest on AWS.

Immutable audit trail

Every change to fees, discounts and salary is logged.

GST & TDS compliant

Indian tax rules built in, with configurable rates.

Data protection

Aligned with the DPDP Act, 2023; student PII protected.

AI guardrails

Hallucination control, PII redaction & human-in-the-loop.

A guided, phased rollout

We deliver in clear phases with checkpoints — so you see working software early and go live with confidence.

1 Discovery

Understand your workflows, branches & data.

2 Foundation

Cloud setup, security, roles & multi-branch core.

3 Core ERP

CRM, enrolment, fees & payments live.

4 Finance & HR

GST, TDS, payroll & biometric.

5 Academics

Tests, mentorship, Mains & personality.

6 AI Layer

Evaluation, mock interview & doubt tutor.

7 Go-Live

Migration, 8-branch training & launch.

8 Support

Ongoing maintenance, updates & SLA.

WHAT YOU GAIN

Outcomes for your institute

1

PLATFORM

All branches & functions on a single source of truth.

24×7

AI SUPPORT

Doubt-solving and practice that never sleeps.

Hours

SAVED

Grading, reporting & reconciliation automated.

Zero

LEAKAGE

Discounts, instalments & payments fully tracked.

And the one outcome that matters most: better-prepared aspirants and stronger results — your institute's real differentiator.

Your end-to-end technology partner

AI-first

An AI innovation & consultancy firm — intelligence is in our DNA, not bolted on.

Built for civil-services

Purpose-designed around how UPSC coaching institutes actually operate.

True partner

Discovery to go-live to ongoing support — we own the outcome with you.

Modern & scalable

Cloud, secure and ready to grow with every new branch you open.
